Make sure the instructors and customers can paddle safe!

## Functional & Stylish

It is functional & comfortable model whilst remaining stylish with a modern design and various colour options!

(Available in 4 sizes with 2 to 4 colors options depending on the model)

## Sustainable Brand

BALTIC LIFEJACKETS is taking environmental initiative by establishing sustainable goals to have 50% of their products made fully or partially from recycled material by 2025.  
They already have the E.I. Range which is made from recycled materials.

## TESTIMONY

Emma, PENICHE SUP SCHOOL's founder and SUP instructor :  
*"I always wear a lifejacket no matter weather. From years of teaching SUP I know weather can change quickly and therefore I never risk mine or our clients safety. "I am a good swimmer" is a common excuse. Swimming in waves, rips, maybe cold water and wind for unknown distance might be harder then you think and when faced with fear your mind reacts differently then you think it would.  
Be a part of the safe trend. Join the SAFE SUP movement!"*
